Summary

A dedicated Junior React Developer with a focus on building dynamic and responsive web applications. I have a strong foundation in JavaScript (ES6+), React.js, and modern front-end tools. My experience spans from crafting reusable components to managing complex application states and integrating APIs to deliver seamless user interfaces. I am passionate about clean code and creating intuitive digital experiences, and I am eager to contribute these technical skills to a professional development team

Education

Alexandria university, Bachelor's Degree

2018 – 2022

Alexandria , Egypt

Skills

- HTML/CSS
- JavaScript
- Reactjs
- Redux

frontend web development diploma [🔗](#), SEFF

12/2022 – 03/2023

Completed coursework in Front-End Web Development, mastering HTML, CSS, JavaScript, React.js, and Redux through structured online programs and applied projects.

Alexandria , Egypt

Projects

Portfolio [🔗](#)

A sleek and responsive personal portfolio website showcasing my projects, skills, and experience as a junior React.js developer. This project serves as a digital resume, highlighting my work in web development and providing a way for potential employers or collaborators to connect with me.

Linktree [🔗](#)

simple linktree web page contains all my social media and main pages links to contact me easily

Crochet Counter [🔗](#)

A simple application designed to help crocheters keep track of their stitches and rows in crochet projects.

Task Manager [🔗](#)

A modern and responsive frontend for a task management application, built with React.js. This application provides a user-friendly interface for managing tasks, integrated with a backend API to handle task CRUD operations and user authentication.
